FRONT OF HOUSE EQUIPMENT

Venue shall provide a professional sound system that will be
capable of providing clear, undistorted, and evenly distributed sound
throughout the concert facility. Examples of professional level
equipment include but not limited to JBL, Meyers, EV, Yamaha.

Venue will provide a professional and competent
front of house sound technician capable of running
the front of house sound at a professional level.

This is an acoustic show but sound is very important to have a great show for everyone.

Please provide a professional level console (Yamaha, Allen and Heath, etc.)
with at least 8 channels (8 channels of reverb, delay, and quality compression).

•

MONITORS

Monitors can be run from FOH. We will need one (1) mix,
and two (2) wedges are required with adequate power.
Acceptable monitor wedges include: (Clair Bros., EAW, EV, Meyer, JBL).

If monitors are to be run from a
separate console located side stage, a
professional, competent monitor engineer must be provided
